Cloud IP Addresses and FQDNs

Last updated: Jan. 23, 2024

Overview

The Falcon sensor on your hosts uses these FQDNs to communicate with the CrowdStrike cloud over the standard port (443) for everyday operation. Add these FQDNs or IP addresses to your allowlists if your organization blocks these network communications.

US-1 IPs

On December 8, 2023 more US-1 IP addresses were added that must be allowlisted. These are in addition to the other cloud IP addresses.

- 54.151.103.156

- 54.151.121.185

- 184.169.155.1

- 184.169.163.158

For more info, see

[Tech Alert | Final Notice - Allowlist Cloud IP Addresses For Sensor Connectivity in 1 Day [/support/news/tech-alert-final-notice-allowlist-cloud-ip-addresses-for-sensor-connectivity-in-1-day]](#)
.

US-GOV-2 IPs

Term Servers

The Falcon sensor on your hosts uses these FQDNs to communicate with the CrowdStrike cloud over the standard port (443) for everyday operation. Add these FQDNs or IP addresses to your allowlists if your organization blocks these network communications.

- Public DNS Name: `ts01-us-gov-2.cloudsink.crowdstrike.mil`

IPs:

- 139.40.151.40

- 139.40.151.78

- 139.40.151.108

LFO download

The Falcon sensor on your hosts uses these FQDNs to retrieve dynamic content, including updates to policy and configuration settings, from the CrowdStrike cloud. Add these FQDNs or IP addresses to your allowlists if your organization blocks these network communications.

- Public DNS Name: `lfodown01-us-gov-2.cloudsink.crowdstrike.mil`

IPs:

- 139.40.151.46

- 139.40.151.91

- 139.40.151.101

Falcon console

- Public DNS Name: `https://falcon.us-gov-2.crowdstrike.mil`

IPs:

- 139.40.152.88

- 139.40.152.38

- 139.40.152.118

OAuth2-based API IPs

OAuth2-based APIs public DNS

For the US-GOV-2 cloud environment, IP addresses are assigned dynamically and are subject to change. If needed, allowlist this public DNS name:

`https://api.us-gov-2.crowdstrike.mil`

Event Streams API

- Public DNS Name: `https://firehose.us-gov-2.crowdstrike.mil`

IPs:

- 139.40.152.70

- 139.40.152.40

- 139.40.152.106

EU-1 IPs

On December 8, 2023 more EU-1 IP addresses were added that must be allowlisted. These are in addition to the other cloud IP addresses.
